ACHIVEMENTS

Winner – Payoda-AppViewX Hackathon
Finalist – Smart India Hackathon 2024

PROFILE

Passionate and dedicated Computer Science undergraduate aiming to build a career as a MERN Stack Developer. Skilled in developing dynamic, responsive web applications using MongoDB, Express.js, React.js, and Node.js. Eager to design scalable components, optimize existing codebases, and contribute clean, maintainable solutions to full-stack and AI-integrated projects.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering
Excel Engineering College,Namakkal
CGPA: 7.8 / 10.0   2022-2026

Higher Secondary Education
Maharishi Vidya Mandir Sr. Sec School, Madurai
PERCENTAGE:71%   2021-2022

MY PROJECTS

CineVault – Movie Info Platform (TMDB API)
- Built a modern web app that displays trending movies, search filters, and details from TMDB API.
- Used React.js, API integration, and responsive design principles.
- Live Demo

Bulk Mailer App
- Built a bulk email sender app with a user-friendly UI for composing and sending emails to multiple recipients.
- Used Node.js and Nodemailer for backend integration.
- Live Demo

Peer Project Showcase App
- Created a web app where users can display their projects with GitHub repo and live demo links.
- Designed with React and integrated GitHub API for fetching repositories.
- Enabled dynamic project card generation for easy portfolio sharing.
- Live Demo

Weather App with Live API Integration
- Developed a weather application using React.js that fetches live weather data from OpenWeatherMap API.
- Implemented dynamic search and real-time UI updates based on user input.
- Styled with Tailwind CSS for a clean, responsive layout.
- Live Demo
